SUMMARY

Second-year B.Tech (Honors) AI & Data Science student with a strong academic record (CGPA: 9.23). Skilled in Python, Java, SQL, Machine Learning fundamentals, Data Structures, and full-stack development. Experienced in applying these skills through academic and hackathon-based projects. Actively seeking AI and software development internship opportunities.

EXPERIENCE

AI & Data Science Student Developer | Software Student Developer (Jul 2024 – Present)
Hyderabad

- Developed multiple academic and hackathon-based applications including a Pest Control Management System, Canteen Management System, Car Rental System, and LMS-based platform
- Built full-stack applications using TypeScript, React, Node.js, Express, MongoDB/MySQL, HTML, and CSS
- Won a first-year hackathon for developing a Python (Tkinter)-based pest control management system for agricultural use
- Participated in hackathons focused on Open Source, Generative AI, and Automation
- Gained hands-on experience in problem-solving, teamwork, and software development best practices

EDUCATION

KL University (2024 – 2028), Hyderabad
B.Tech (Honors) in Artificial Intelligence & Data Science
Current CGPA: 9.23
Strong foundation in Machine Learning, Data Structures, Python, Java, DBMS, and Data Science

St. Joseph's School (2022 – 2024), Hyderabad
Intermediate (Class XI–XII), ISC
Percentage: 73%
Focus on Mathematics and Science

St. Joseph's School (2021 – 2022), Hyderabad
Secondary School (Class X), ICSE
Percentage: 89%

SKILLS

Programming Languages: Python, Java, SQL, C (Familiar)
AI & Data Science: Machine Learning Fundamentals, Data Science Concepts, AI & DS Core Subjects
Software Development: Full Stack Development (Fundamentals), Data Structures & Algorithms (DSA)
Databases: MongoDB, MySQL
Tools & Platforms: Git, GitHub, VS Code
Soft Skills: Leadership, Communication, Team Collaboration
